Rawalpindi Pakistan

### SUMMARY

Experienced Android app developer with over 4 years of hands-on experience building high-quality, innovative mobile applications. Passionate about collaborating in dynamic teams, exploring new technologies, and solving complex challenges. Seeking a long-term role where I can contribute my skills, lead critical development efforts, and continue growing as an expert in Android development.

### EDUCATION

2017 - 2021   Bachelor of Science in Software Engineering  
Foundation University

### TECHNICAL EXPERIENCE

- 2023 - Present  
Rawalpindi, Pakistan
- Senior Android Developer  
Funloft Solutions
- Specialized in creating responsive UI designs, ensuring seamless adaptability across various screen sizes and resolutions.
  - Integrated and applied pre-trained AI models in Android applications for features like face detection, image generator, and chatbot.
  - Successfully built 5+ high-performance Android applications using Kotlin, and Jetpack Compose, delivering feature-rich solutions that align with user needs and business objectives.
- 2021 - 2023  
Rawalpindi, Pakistan
- Android Developer  
ClimaxCode Technology
- Expert in integrating RESTful APIs to enable seamless user experiences through efficient data fetching, synchronization, and real-time updates.
  - Proficient in integrating Google APIs (e.g., Maps, Firebase, Google Sign-In).
  - Utilized Canvas scripting to develop custom editing tools for annotations and animated drawings.
  - Developed and deployed 10+ Android applications using Java and Kotlin, delivering feature-rich, high-performance solutions tailored to user needs and business goals.
- 2020 - 2021  
Islamabad, Pakistan
- Junior Android Developer  
Buzzware Technologies
- Collaborated in Agile teams to deliver high-quality Android features on time, ensuring consistent updates and user satisfaction.
  - Successfully developed and delivered 3+ feature-rich, high-performance Android applications using Java and Kotlin, tailored to meet user needs.

### TECHNICAL SKILLS

Java / Kotlin	API's	Map Box / Google Map	Firebase	AI Models	MVVM	MVI	Jetpack Compose
Kotlin Coroutines	TensorFlow Lite, ML-Kit	Google AdMob	Room Database	Android SDK	Canvas		

### STRENGTHS

-  Collaboration and Communication
- Strong communication skills for seamless collaboration with UI/UX designers and developers, ensuring smooth Android app development.
-  Client Interaction
- Demonstrated strong client-facing skills by translating complex requirements into intuitive, user-friendly Android UI/UX solutions.

### KEY ACHIEVEMENTS

-  Diverse Technology Proficiency
- Demonstrated a strong foundation in contemporary Android programming techniques by successfully contributing to projects using Android technologies such as Java, Kotlin, and Jetpack Compose.
-  Junior Android Developer Role
- Gained valuable experience as a junior Android developer, honed my Java, Kotlin, and Jetpack Compose skills, and helped the team's mobile app development projects succeed.
