

MUHAMMAD HAMZA AWAN

ANDROID DEVELOPER

+923495305039 hamzaawan888849@gmail.com https://www.linkedin.com/in/itsmhamza Rawalpindi Pakistan

SUMMARY

Experienced Android app developer with more than 4+ years of experience building cutting-edge mobile apps. Passionate about working in dynamic teams, learning new technologies, and solving challenging problems. Looking for a long-term position where I can utilize my skills, drive critical development, and grow as an Android development expert.

EDUCATION

2017 - 2021 Bachelor of Science in Software Engineering
Foundation University

TECHNICAL EXPERIENCE

- 2023 - Present
Rawalpindi, Pakistan
- Senior Android Developer
Funloft Solutions
- Specialized in creating responsive UI designs, ensuring seamless adaptability across various screen sizes and resolutions.
 - Integrated and applied pre-trained AI models in Android applications for features like face detection, image generator, and chatbot.
 - Successfully built 5+ high-performance Android applications using Kotlin, and Jetpack Compose, delivering feature-rich solutions that align with user needs and business objectives.
- 2021 - 2023
Rawalpindi, Pakistan
- Android Developer
ClimaxCode Technology
- Expertise in integrating RESTful APIs to deliver seamless user experiences with efficient data fetching, syncing, and real-time updates
 - Proficient in integrating Google APIs (e.g., Maps, Firebase, Google Sign-In)
 - Used Canvas Scripting to create unique editing tools for annotations and animated drawings.
 - Built 10+ Android applications using Java, Kotlin successfully delivering feature-rich, high-performance apps tailored to user needs
- 2020 - 2021
Islamabad, Pakistan
- Junior Android Developer
Buzzware Technologies
- Collaborated in Agile teams to ensure quality and timely delivery.
 - Successfully developed and delivered 3+ feature-rich, high-performance Android applications using Java and Kotlin, tailored to meet user needs.

TECHNICAL SKILLS

Java / Kotlin	API's	MapBox / Google Map	Research and Development	Firebase	AI Models	MVVM	MVI
Jetpack Compose	Navigation Components	Kotlin Coroutines	TensorFlow Lite, ML-Kit	Google AdMob			
Room Database	Android SDK						

STRENGTHS

- Collaboration and Communication

Strong communication skills for seamless collaboration with UI/UX designers and developers, ensuring smooth Android app development.
- Client Interaction

Developed strong client-facing skills, effectively translating requirements into seamless Android UI/UX solutions.

KEY ACHIEVEMENTS

- Diverse Technology Proficiency

Demonstrated a strong foundation in contemporary Android programming techniques by successfully contributing to projects using Android technologies such as Java, Kotlin, and Jetpack Compose.
- Junior Android Developer Role

Gained valuable experience as a junior Android developer, honed my Java, Kotlin, and Jetpack Compose skills, and helped the team's mobile app development projects succeed.
